BRANCHING & MAPS: COLOSSAL CAVE ADVENTURE

GO TO: <https://grack.com/demos/adventure/>

Names:

1. On the back of this paper, continually draw a map as you explore the world of the program.

2. Use PSEUDOCODE with IF/ELSE to describe 2 of the branching points that you discover in the program:

IF . . .

3. What are 2 examples where the programmer might have used a boolean variable to hold the “state” of the game?

4. What are some examples of other information that the programmer(s) might have held in memory as variables?

5. What are your experiences as you play this game? Name 2 aspects of the program that you enjoy.

6. What are some critiques of this program that you may have?
